Membership and Society News

Message from the IEEE Professional Communications President, Suzanne Lane

Dear ProComm colleagues and friends,

We are so pleased to be relaunching our newsletter! Coming off a fantastic conference in July at the University of Southern Denmark, and with a reinvigorated group of volunteers, ProComm is moving ahead with many new projects. We're planning for this newsletter, which we will publish quarterly, to provide updates and information about events and initiatives, and to be a way of disseminating information about best practices in communication for all of our members.

We're also hoping that the newsletter will create a greater sense of community among members. To that end, we are particularly interested in your submissions of relevant news and information, and in your feedback on features you might like to see in the newsletter. And of course, we are always looking for volunteers! I hope to see many of you next year at our 2026 conference in Alberta, Canada.

Best,

Suzanne Lane
ProComm President

Conferences Information

12-15 July 2026

ProComm 2026 Location!

The ProComm 2026 location has been announced! Join us in Alberta, Canada, 12-15 July 2026.

Answer a CFP: Special Edition

Call for Papers: **(Re) Establishing the Value of Professional and Technical Communications**. IEEE ProComm's journal the *IEEE Transactions on Professional Communication*, welcomes authors for this special edition. The guest editors, Tiffany Craft Portewig (University of Arizona) and Rochelle (Shelley) Rodrigo (University of Arizona), have crafted a powerful framework for this edition to be released in 2026

From the call: This special edition seeks to examine how we establish, demonstrate, and articulate the value of PTC in academic and industry settings in our current landscape. For this issue, we are looking for examples of research into what academic programs and practitioners are doing to address this question and establish value
